## **ALPHA CORPORATION WINS CITY OF BALTIMORE CIVIL/STRUCTURAL ENGINEERING SERVICES CONTRACT**

**BALTIMORE, MD, December 4, 2014:** Alpha Corporation, a professional engineering/construction management firm, has been selected by the City of Baltimore Department of General Services to provide on-call civil/structural engineering services. The work will consist primarily of the preparation of construction documents for repairs, renovations, and minor new construction related to a variety of public buildings and miscellaneous structures (such as office buildings, health facilities, police stations, fire stations, libraries, schools, and multipurpose centers), utilities, and other facilities. Work may also involve analyzing existing structures for safety and preparing temporary or permanent corrective actions. The contract performance period is two years.

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/ construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology.
