## ALPHA CORPORATION AWARDED MONTGOMERY COUNTY CA&I CONTRACT

**BALTIMORE, MD, March 6, 2014:** Alpha Corporation, a professional engineering/construction management firm, has been selected by Montgomery County for an on-call contract to provide a full range of transportation related construction project management, contract administration, construction inspection, and related technical services county-wide. The various transportation capital improvement projects that may be under this contract include roadway and street construction, highway projects, bridge rehabilitations, new bridge construction, storm drain projects, intersection and other traffic improvements, bikeway and pedestrian facilities, transit facilities, streetlights, and parking facilities. Another possible major assignment may be the Pedestrian Underpass on Rt. 355 connecting NIH and Walter Reed National Military Medical Center—the County's first design-build job. This is a three-year base contract with two, one-year renewal periods. It is also Alpha Corporation's third consecutive time in winning this contract.

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology. For more information, visit [www.alphacorporation.com](http://www.alphacorporation.com).
