ALPHA CORPORATION IS FOUNDING GOLD SPONSOR OF MILLION WOMEN MENTORS; JOINS CONGRESSIONAL MEETING FOR ORGANIZATION'S CELEBRATORY LUNCHEON

WASHINGTON, DC, March 5, 2014: Alpha Corporation, a professional engineering/construction management firm, has extended its community outreach to now include being a founding gold sponsor of the Million Women Mentors (MWM) program. Alpha Corporation is the only engineering/construction management firm to round out the full roster of founding sponsors. MWM is an engagement campaign and national call to action that mobilizes corporations, government entities, non-profit and higher education groups, around the imperative of mentoring girls and young women in science, technology, engineering and mathematics (STEM) fields. Since MWM's launch in January 2014, nearly 45,000 pledges have been made to mentor girls and young women in STEM skills.

Further, Alpha Corporation CEO Kate Lindsey was tapped to help emcee a landmark gathering of 20 key women Senate and House leaders joining the Million Women Mentors (MWM) movement. A celebratory luncheon was held today in the Hart Senate Building. It saluted the US Senators and Representatives who work to advance the roles of girls and women in STEM education and career development.

"If we're going to keep our competitiveness in the global economy, we must prepare our students with the education they need for the jobs of the future. That starts with getting more talented students – and girls – into the STEM pipeline at a younger age, expanding engineering education, and bringing more STEM teachers into high-need communities. Million Women Mentors will make all the difference, giving our young girls role models in STEM fields and mentors to guide them through. We are relying on our children today to be the innovators of tomorrow. It's our job to make sure they are prepared," said US Senator Kirsten Gillibrand.

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology. For more information, visit www.alphacorporation.com.

Million Women Mentors (MWM) supports the engagement of one million science, technology, engineering and math (STEM) mentors (male and female) to increase the interest and confidence of girls and women to persist and succeed in STEM programs and careers. MWM is a collaboration of more than 58 partners (reaching over 30 million girls and women), 30 sponsors, and 30 state leadership teams. The MWM Leadership Council is chaired by Cisco, PepsiCo, Sodexo, and Tata Consultancy Services. Over 200,000 pledges to mentor girls and women in STEM have been entered to date at www.millionwomenmentors.org.
