ALPHA CORPORATION CEO FEATURED IN STEM SPOTLIGHT

DULLES, VA, September 26, 2014: CEO Kate Lindsey of Alpha Corporation, a professional engineering/construction management firm, was nominated and selected for being showcased in STEMconnector's annual 100 Leaders publication series. STEMconnector's third edition specifically focuses on the 100 diverse corporate leaders.

Previous years have included CEOs from Microsoft, Google, Intel, Boeing, and others. Each of the showcases feature information about that leader's company, their own biography, and responses to a questionnaire. The showcase for Kate Lindsey can be referenced on Page 56 of the PDF available for public downloading ([www.dropbox.com/s/uzvc8l6m8swnuti/100 DIVERSE CORPORATE LEADERS IN STEM - For Release.pdf?dl=0](http://www.dropbox.com/s/uzvc8l6m8swnuti/100%20DIVERSE%20CORPORATE%20LEADERS%20IN%20STEM%20-%20For%20Release.pdf?dl=0)). Distribution of this particular edition is expected to surpass the average 20,000 of previous years.

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/ construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology.
