## ALPHA CORPORATION CEO HELPS LAUNCH STEM 2.0

**BETHESDA, MD, June 18, 2014:** CEO Kate Lindsey of Alpha Corporation, a professional engineering/construction management firm, joined a panel discussion at today's STEMconnector Council Meeting to help launch the release of STEMconnector's latest publication—"STEM 2.0-An Imperative for Our Education System & Future Workforce." The audience comprised an array of key decision makers towards advancing the principles and core concepts of STEM. From leading universities to Global 1000 companies, representatives were present from NYU, ASU, the Maryland Business Roundtable for Education, PepsiCo, Sodexo, National Science Foundation, and others. Kate Lindsey's panel focused on corporate STEM Council perspectives. Kate was joined by fellow panelists Kay Cullum, Senior Director-HR Strategy for Wal-Mart, and F. Michael Sena, Deputy Director-Office of Diversity Management & Equal Opportunity for the Department of Defense (DoD).

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/ construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology.
