ALPHA CORPORATION WELCOMES TWO KEY MANAGERS

BALTIMORE, MD and VIRGINIA BEACH, VA, March 3, 2015: Alpha Corporation, a professional engineering/construction management firm, welcomes both Sanjay Kumar, P.E., as Regional Manager—Mid-Atlantic Region and Brian Camden as Program Manager.

Sanjay re-joins Alpha Corporation on February 18 with a 33-year career that encompasses the whole of civil and transportation engineering from planning and design development to managing actual construction and related quality assurance initiatives. His project experience includes multimillion dollar projects/programs with extensive inter-disciplinary coordination at both the municipal and state highway levels, including but not limited to SHA-MDOT, DDOT, and VDOT. Notably, he served as program manager for the Anacostia Waterfront Initiative, a multibillion dollar infrastructure program in Washington, DC. In June 2010, Sanjay received both a Governor Citation and Official Citation from the Maryland House of Delegates for having been an active member of the Conference of Minority Transportation Officials (COMTO).

As Regional Manager—Mid-Atlantic Region, Sanjay will be based out of Alpha Corporation's Baltimore office. In addition to managing its day-to-day operations, Sanjay will focus on expanding the company's award-winning infrastructure/transportation and vertical construction portfolios throughout the mid-Atlantic region in complement to other regional managers based in the Dulles, Virginia headquarters and Virginia Beach satellite office. Sanjay is a licensed professional engineer (civil) in Maryland and other states with additional training/certification from the Federal Highway Administration. He holds a BS in Civil Engineering from Delhi College of Engineering.

FOR IMMEDIATE RELEASE: Alpha Corporation Welcomes Two Key Managers
March 3, 2015 | Page 2 of 2

Brian joins Alpha Corporation following more than 40 years in the construction, architectural, and engineering industries. He started his career in the field as a carpenter, matriculating through various team roles and responsibilities from field engineer and estimator to project manager and construction program manager. Brian has personally managed over \$200 million in publically funded construction programs throughout the Virginia Tidewater area. His reputation has been forged from being able to take on oversight of challenging construction projects through delivery and occupancy for various municipalities. In 2011, Brian was appointed by the Virginia Beach City Council to serve on the governing Board of the Virginia Beach Development Corporation—a post he actively maintains today.

As Program Manager, Brian will be based in Alpha Corporation's Virginia Beach office. He will focus his insight and serve on projects that fall within the K-12, higher education, private/commercial development, and municipal vertical development markets.

Alpha Corporation President Philios Angelides, P.E., stated that "Both Sanjay and Brian bring forward industry knowledge, reputation, and leadership that will be invaluable assets in further expanding Alpha Corporation's brand of service innovation and quality within the A/E/C, government, and private sector clients. We are excited to have them join our expanding leadership team as we grow in existing and new markets."

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/ construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology.
