## ALPHA CORPORATION ON WINNING TEAM FOR SPOTSYLVANIA COUNTY A/E SERVICES CONTRACT

**WINCHESTER, VA, January 29, 2015:** Alpha Corporation, a professional engineering/construction management firm, has received official word that the Peck Peck and Associates team has been awarded a contract to provide professional architectural and engineering services for various County facilities. Specific projects under this contract may include designs and site plans for an animal control facility; renovations to the Marshall Building (old Spotsylvania High School); renovations to the courthouse; and a new public works/utilities office building. Additional work may involve renovations of other existing Spotsylvania County public buildings and facilities including police, fire and rescue facilities; storage facilities; and recreational facilities. Alpha Corporation's role on Peck Peck and Associates' team will include structural engineering services. This contract has a performance period of one base year with four additional one-year options.

Alpha Corporation, a full-service woman-owned firm, provides civil/structural engineering, program/construction management, project controls, and technology services for various building types and heavy infrastructure projects. Assignments have encompassed providing these services for a broad spectrum of clients, including all levels of government agencies, public and private enterprises/partnerships, Fortune 500/Global 1000 companies, institutions of learning, commercial developers, energy companies, contractors, architects, and more. Overall, the firm's project portfolio exceeds \$50B in program constructed value for the past 35 years. Alpha Corporation's vision is to be recognized by clients for responsive, innovative and quality services in the building and infrastructure sectors, and to be the employer of choice for professionals seeking stimulating and rewarding careers. Alpha Corporation's mission is to provide innovative and sustainable solutions for the lifecycle of building and infrastructure projects through the integration of best-practice engineering, program/construction management, project controls, and technology.
